

Dorm Officers Get Approval Of Inst. Comm.

Maxson To Represent Dorms At Institute Committee Meetings

At last evening's regular bi-weekly meeting of the Institute Committee the election of the officers of the Dormitory Committee, with the exception of the chairman, and the appointments of the various sub-committee heads were approved. The election of Robert B. Meny, '44, chairman, had been approved before the new Institute Committee took office.

The new officers of the Dormitory Committee are: Robert B. Meny, chairman; L. William Maxson, '44, treasurer; Robert Nicolait, '44, secretary. Appointed to head the various sub-committees were: Kenneth M. Rehler, '44, chairman of the Athletic Committee; Caspar C. Schneider, Jr., '44, chairman of the Dance Committee; Malcolm G. Kispert, '44, chairman of the Social Committee; Andres A. Freitas, '44, chairman of the Information Committee; Americo F. Almeida, Jr., '44, chairman of the Burton Room Committee; James S. Ruoff, '44, chairman of the Dinner Committee; John R. Taft, '44, chairman of the Freshman Committee.

Army Now Open to Men Seventeen By New Regulation

E.R.C. Students Face Call Unless They Are Registered Next Term

The Office of the Armed Services Representative at the Institute announced this week that information could be obtained at that office for seventeen-year-old men who wish to enlist in the Army under its recently announced plan. Under this system, these men would definitely remain in an inactive status until becoming eighteen years of age, and might possibly remain thus for a longer period.

The Army Air Forces is the branch in which most of the men who have so far investigated this plan have been interested, according to Professor John D. Mitsch. Enlistment in the other branches is, of course, open too, he said.

Professor Mitsch also suggested that men follow Doctor Compton's advice in his recent letter published in The Tech, and register for the second term. He said that as no calls have been issued nor any dates set for the calling of the E.R.C. men who do not register for the second term will be liable to immediate call to the Army at the completion of the present term. This, he stressed, is no new development, but only the arrangement which was made at the time of en-

(Continued on Page 4)

T.C.A. Will Remain Open During Mid-Year Recess

The Technology Christian Association, as it has done in past years, will remain open during the recess which follows the examination period next week.

Those students who desire to take advantage of the many services which the T.C.A. offers may do so, therefore, at the office during the week between 9:00 A.M. and 5:00 P.M. and on Saturdays between 9:00 A.M. and 1:00 P.M., it was announced last night by Mr. Wallace M. Ross, general secretary.

Hull's Appointment As Soph President Passed By Solons

At the Institute Committee's regular meeting at 5:00 P.M. yesterday afternoon in Litchfield Lounge John L. Hull, '45, was made the president of the Class of 1945, in light of the resignation of John F. Burke, '45, from that position. Hull has been the vice-president of the class since last April.

In the first motion of the meeting, the election of officers and the various committee chairmen of the Dormitory Committee were approved. As the Dormitory Committee Chairman was approved at the last meeting of the old Institute Committee, only the other officers had to be approved.

M.I.T.A.A. Appointment Approved

The appointment of Robert F. Kratz, '44, to the Executive Committee of the M.I.T.A.A. as treasurer of that organization was also approved. Kratz is the final member of the M.I.T.A.A.'s Executive Committee, as all the other officers were appointed and approved last December. Waiting until the first meeting of the A.A. to appoint the treasurer is the regular practice of that organization. Although the position of treasurer of the M.I.T.A.A. has only been created recently, the work having been formerly handled by the chairman of the Budget Committee.

As the chairman of the Dormitory Committee already holds a position on the Institute Committee representing the Class of 1944, a motion was necessary to appoint L. William Maxon, '44, treasurer of the Dormitory Committee, as the Institute Committee representative of the

(Continued on Page 4)

Walker Dining Service Staff Needs Many More Students

"At the commencement of the fall semester the Walker Dining Service Student Staff had 112 members. Seventy-seven of these have resigned from the staff, thirty-two being lost because of impending graduation, and the remaining forty-five students leaving because of entry into the armed services and other causes." This statement was made by Mr. William H. Carlisle, Jr., Assistant Manager of the Walker Memorial Dining Halls.

Mr. Carlisle further stated that the reserve list of applicants, from which the staff is chosen, has dwindled to a mere five persons. During the past decade this reserve list has usually been kept at a constant level of from 125 to 150 persons. The five persons who are on the present list have already been interviewed and approved to begin work on February 8, after the examination recess is over.

More Help to be Needed

A number of replacements have been made to take the places of those students lost, but these replacements are not as great as would be the case were the reserve list longer. It is expected that even more persons are to be needed at the beginning of the coming spring semester to replace those who graduate and those who do not return to the Institute for one reason or another.

Mr. Carlisle said that those interested in becoming members of the student staff should apply to be interviewed in his office, opposite Pritchett Hall in Walker Memorial, between the hours of 10:00 A.M. and 12:00 Noon, and also between

I.F.C. Discuss Dance Plans

Steward's Committee; Plans Mentioned

The regularly monthly meeting of the Inter-fraternity Conference was held last night at the Smith House at 6:30 P.M. A bare quorum of thirteen houses were present. The meeting was the first at which the new officers for the coming year were in charge.

Dance Chairman Lewis Tyree, Jr., announced that the I.F.C. still held five options on the Statler Ball Room for the second term, but that further details of the dances were being held back until second semester, when later developments might more clearly outline the situation which the dance would be facing. He also suggested that in case anything unforeseen should arise, the Dance Committee would appreciate suggestions as to what could be done in the way of a small, or inexpensive dance. He asked that anyone who had any ideas of this kind give them to him, as soon as possible.

Stewards Committee Suggested

Chairman William O. Boschen, '44, brought up the subject of the

(Continued on Page 4)

All Students May Obtain Commencement Tickets

Two tickets for the baccalaureate service will be given to any graduate or undergraduate student who applies at the Information Office before the supply is exhausted.

The service will be held at Symphony Hall on Sunday afternoon, January thirty-first at three o'clock. The Honorable Paul V. McNutt, Chairman of the War Manpower Commission, will give the baccalaureate address. Since this is a religious service, automobiles may be used for transportation.

Tuition Must Be Paid Before February 4, 1943

Tuition and other fees and deposits for the second term due to be paid on or before February 4, 1943. If paid by mail, the envelope must be postmarked no later than February 2, 1943.

As the spring semester does not begin until February 9, 1943, those persons who are going home for the recess, and who do not plan on getting back to school before February 8 had better make sure their tuition is taken care of on time. Failure to do so will result in the levy of a \$5.00 fine.

Victory Books Are Exhibited

Autographed Volumes Shown At Harvard Sq.

The Old Corner Book Store at Harvard Square is now the scene of an exhibit of new books donated to the Cambridge Victory Book Campaign. Among them are many first editions on science and engineering written by Technology professors. Of these quite a few are autographed by the authors.

Some of the Institute professors who have books in the exhibit are Professor Harold E. Edgerton, Associate Professor of Electrical Engineering; Professor Shatswell Ober, Associate Professor of Aeronautical Engineering; Professor C. Fayette Taylor, Professor of Mechanical Engineering; Professor Edward S. Taylor, Professor of Aeronautical Engineering; Professor Victor O. Hommerberg, Professor of Metallurgy; Professor John W. Williams, Associate Professor of Public Health; Professor Avery A. Morton, Professor of Chemistry; Professor Henry B. Phillips, Professor of Mathematics; and Professor William H. Timbie, Professor of Electrical Engineering.

Technical Books Wanted

This drive, the Technology division of which is under the direction of Mrs. Horace S. Ford, wife of the Treasurer of the Institute, is trying to get books for various libraries at army camps. Here at Technology it is hoped by Mrs. Ford that the drive will bring in books of a technical nature, as it has already started to through the donations made by the Professors.

The drive, however, is looking for books of all kinds in good physical condition. The types wanted are recent best sellers, such as Book of the Month or other book club selections, books of jokes and games, western and adventure stories, and

(Continued on Page 4)

T.C.A. To Help In Book Campaign

Cooperating with Mrs. Horace S. Ford, director of the 1943 Victory Book Campaign at Technology, the T.C.A. is acting as the receiving station for the fraternities and dormitories in this drive. In a letter sent to the various fraternities, Howard S. Lockwood, '45, Director of the T.C.A. Book Exchange, asked representatives of each of them to bring to the T.C.A. office all the technical books, popular fiction, and popular non-fiction books that they had to donate. A similar letter is being posted on the dormitory bulletin boards.

All books that are turned in should be in good physical condition. It is requested that all books be brought to the office, because of transportation difficulties, but if this is impossible the T.C.A. should be notified and arrangements to pick up the books will be made.

Committee Asks Seniors to Buy Tickets Today

Weekend Schedule Assures Full Program For Class Of 1943

Tomorrow from 11:00 A.M. until 2:00 P.M. will be the last time that Senior Week options may be redeemed and tickets purchased at the desk which has been in the Main Lobby of Building 10, according to Robert B. Rumsey, '43. In the future tickets may only be obtained from members of the Senior Week Committee. The price of redemptions is \$9.50, and that of the full ticket is \$14.50.

The big event of the week end, which begins next Thursday, is to be the Senior Ball, at which Tony Pastor and his orchestra are to play. The ball will be held at the Statler Hotel on Monday night, February 1.

Events of the Weekend

Preceding the dance will be the traditional Stag Banquet, on Thursday night at the Hotel Vendome. An informal party will be held at the Commonwealth Country Club,

(Continued on Page 4)

Sophomore Prom Being Considered In Second Term

Plans Proceeding As Far As Possible; No Commitments Made

Despite the uncertainty which faces them, the Sophomore class is carrying on its plans for the annual Sophomore Prom to be held during the second term, it was revealed last night by John L. Hull, '45, who has succeeded John F. Burke as president of that class. Under the leadership of the members of the Quadrangle Club, the class is going ahead with all possible plans which can be made without financial commitments.

The plans are proceeding as far as possible without signing any definite contracts or contracting any debts. This is being done in order that if by any chance the dance must be cancelled, the class will not be required to stand any loss. So far the place at which the dance is to be held has been determined, and the Sophomore Prom Committee holds the first option for the date which is being considered.

The band committee has also made thorough investigation into the orchestra situation, and has but to sign a contract in order to get a "name band" for the dance.

75 Copies Of Technique May Still Be Obtained

Last night the Managing Board of Technique announced that there are still about seventy-five copies of the year book available. This results from the fact that a number of pledged books have not as yet been redeemed.

The Technique Office, on the top floor of Walker Memorial, has set aside the following hours during which cash sales and redemptions of pledged copies may be made: today from 9:30 A.M. until 12:00 Noon and from 5:00 P.M. until 6:00 P.M.; closed all day tomorrow; open from 9:30 A.M. to 12:00 Noon and from 5:00 P.M. until 6:00 P.M. from Monday through Friday of next week.

The cash sale price is still \$5.00 per copy, while the price of the redemption varies according to how much was paid and when it was paid.

DIPLOMACY SPELLS TRAGEDY

The Russian offensives which are driving the Nazis before them on a front 1250 miles long are accomplishing one remarkable feat. They are ridding the world of fascists on an immense scale, and thus are bringing the ultimate victory for the allies closer to being a reality. These offensives are demonstrating to the conquered peoples of the world, to the peoples who live under the oppressor's heel that liberation will inevitably be forthcoming. Furthermore, these victorious offensives, ipso facto, show that the Russians have discovered the "secret" of how to deal with fascists, a secret which our State Department seems unwilling to accept.

If the events in North Africa are any indication of what we may expect in the future, and no word comes to negate such an opinion, the outlook to ourselves is disappointing to an extreme and to those Frenchmen, Belgians, Dutch, Norwegians, and so on down the long list of allies fighting back through adversity, our attitude must be completely baffling.

Baffling is an inadequate adjective, but it may attempt to describe the situation as it stands. President Roosevelt stated on November 17, 1942, "I have requested the liberation of all persons in Northern Africa who have been imprisoned because they opposed the efforts of the Nazis to dominate the world and have asked for the abrogation of all laws and decrees inspired by Nazi governments or Nazi ideologists." Yet the Nuremberg laws continue to be in effect in Northern Africa, De Gaulle's and French anti-fascists who were fighting our fight in the Spanish War are still in jail. Even after our invasion men were being thrown into prisons, and many of these men had risked their lives to help our invasion effort. If some of these men are in jail for other reasons than for having helped us, we demand to know what those reasons are.

Elmer Davis, head of the O.W.I. remarked that they were locked up "because they were political opponents of people in power," and such being the case, nothing could forebode a worse future for all plans of post-war reconstruction. What our State Department is doing in effect is allowing those in power in North Africa to squeeze out all other factions and permanently establish themselves in the saddle. Perhaps it is a wise thing to begin to establish a new government to which people may turn for guidance and leadership, but has not the Cross of Lorraine meant something for these past years? And is it anything short of absurdity to think that a French tradesman risking his very life to sabotage a German factory will look forward eagerly to a France ruled by men like Peyrouton?

Who is Peyrouton? He is the man who has just been made Governor-General of Algeria. His past? In 1933, Resident General of Tunisia, where he dealt hard with the natives and the trade union men. In 1935, he visited Marshal Italo Balbo and paid tribute to "the creative spirit of fascism." In 1940 he became . . . and so the story goes. His one redeeming feature is that he once spoke openly against Laval. Our answer is that A. Shickelgruber has probably done so himself. This is Peyrouton and men like him will be used to remake France.

Our State Department should begin to realize that expediency has proved disastrous too often in the past and that "dirty politics" are not what our men are fighting to preserve. If we are following this course to prevent Franco from knifing us on our exposed flank, then the least we can do is to make some gesture of intent, some move for justice. We could free the political prisoners, repeal the Nazi race laws and show the conquered peoples that we have their best interests at heart and that the real political struggle is still to come. Such an action on our part would do more good than transcribed speeches by the President.

Words are effective, true enough, but actions are far more potent, for they are decisive, and so far our actions have rather than underlining the President's words, have served to nullify them completely.

But the Russians continue to kill Fascists.

SELECTIVE SERVICE HEAD SPEAKS

Not one of us should need be told what total war is going to mean to America.

All of us have relatives or friends who have left their homes and anxiety about someone we know who has not been heard from, or has been reported missing, or captured, or wounded. Some of us already mourn an American soldier, sailor, marine, or merchant seaman who has died in action.

Here at home we are learning to accept restrictions and privations with better grace than we did just a few months ago because the heroism of our American boys on land and sea is biting deep into our conscience.

We are beginning to understand that every day, every hour, every minute this war continues our boys will continue to sacrifice, to suffer, and to die. But how long will it be before we, individually, understand that the extra day, the extra hour, or the extra minute our failure to do our full duty permits this war to continue may mean that our own boy will not come home? When we do understand that, no one of us will tolerate anything short of an all-out effort by our entire Nation—individually and collectively.

A total effort by our entire Nation means that our every resource of manpower must be utilized and each put to the task that will do most to bring this war to a victorious end at the earliest possible moment. Even a minute may make the difference between whether or not our own boy comes home. This is a war of dynamics . . . power . . . and attrition.

We are fighting a fanatical foe who will throw lives at us to take our boys' lives—throw munitions and weapons at us to destroy our munitions and weapons. We will not beat him, and American boys will not stop dying, until we overwhelm and destroy him with the power of our war production. When that day comes the war will be over.

There is no question about the ability of our fighting men to do their job, if we give them the things they need to do it.

We of Selective Service are justly proud of the part we have played in building the magnificent fighting machine that has already made history around the world.

But that is just the beginning.

If we are to keep faith with those we have selected for service—and we shall—we must do the all-important job that lies ahead in such a manner that every fighting man, giving everything he has to give on the battle front, will know that we at home are doing everything we can to bring him back to us a victorious hero and just as soon as possible.

We must now begin a task of supplying men not only for the Army but for the Navy, Marine Corps, and Coast Guard as well. Daily the demands of industry and agriculture place a greater strain upon our manpower resources. To meet the needs in the armed forces, in industry, and agriculture the selection of men to do the jobs that will contribute most to the war effort is of greatest importance.

As part of the War Manpower Commission, Selective Service will continue to perform this important function. The cessation of voluntary enlistments, greater control over the movement and utilization of labor by other elements of the War Manpower Commission, and increased facilities for analyzing labor needs all are important steps toward maximum use of our manpower resources.

It is with confidence in the ultimate success of the program that we of Selective Service go forward to greater effort and ultimate victory.

LEWIS B. HERSHEY, Director of Selective Service

NOTHING NEW ON HOME FRONT

With this issue of The Tech, publication will be suspended until Tuesday, February 9th, at which time we earnestly trust that The Tech will be able to present to the students the full details of the disposition of all of us, no matter what our status.

As we enter our examination period, however, the situation remains unchanged. No final date has been named for the induction of the freshmen and Sophomores in the E.R.C. although the original date was set for "the end of the current semester." With no further information forthcoming, possibly because of the lack of machinery to effect the calling up of the men, it appears reasonable to assume that the Army Specialized Training Program will not get under way before the middle of March, if at that time.

In any case, 1st year advanced R.O.T.C. students, and Juniors in the E.R.C. will be enabled to complete the coming academic term before being taken from school. Whether or not they will be put on active status before June is uncertain at this time, and this uncertainty is not one of secrecy, but rather of indecision, or perhaps a change in decision. Criticism leveled on the Army for its plan has been heavy, and this criticism may have forced some changes in the program.

Faced with this uncertainty, we ought to do two things. First, we ought, for the good of the soul, to single out our most sympathetic friend and cry copious tears on his shoulder, and then follow Dr. Compton's studied advice after tossing the crying towel to Adolph Shickelgruber. He needs it, we don't.

No Selectees To Go In Navy Till Next Month

Marine Corps, Coast Guard Also Awaiting Combined-Calls Plan

(Editor's Note—The following appeared in the December issue of "Selective Service," the publication used as a medium of information between National Selective Service Headquarters and other components of the Selective Service. It is reprinted here for the benefit of those students not in any reserve, and not at present eligible for deferment, who may be interested in other branches of the service rather than the Army.)

Pending establishment of procedure to levy calls for inductees for all branches of the armed forces, which is expected to be perfected about February 1, the Navy, Marine Corps, and Coast Guard will obtain virtually all of their required manpower during January from among Selective Service registrants who volunteer for induction. Inductees for the Army during this period will be selected and forwarded by the local boards in accordance with existing procedure prescribed by Selective Service regulations.

The Executive Order issued by President Roosevelt on December 8, 1942, halted induction into any of the armed forces of registrants between the ages of 18 and 38 years except under the provisions of the Selective Training and Service Act of 1940, as amended. This limiting of enlistment to men outside the 18-to-38-year bracket, who may be inducted at the discretion of the respective services, made it necessary to provide temporary induction procedure for the Navy, Marine Corps and Coast Guard, which had not been recruiting through Selective Service, until arrangements for coordinating their calls with the Army can be made.

Incidentally, the induction of volunteer Selective Service registrants into the Navy, Marine Corps, or Coast Guard under this temporary arrangement will be the first time any of these services had recruited otherwise than by enlistments since World War I. During the previous conflict enlistments were stopped in October 1918, and during that month and the next, up to the Armistice on November 11, approximately 6500 men were drafted for the Marine Corps, and about 1300 for the Navy.

Instructions sent to local boards by National Headquarters outlining temporary induction procedure for the Navy, Marine Corps and Coast Guard, state that any registrant between the ages of 18 and 38 who wishes to volunteer for induction into one of these services may make application with his local board by completing an Application for Voluntary Induction, provided he has not previously been ordered to report for induction into the Army.

Physical Test Waived

The requirement that before classification a volunteer for induction be physically examined by a local board examining physician is waived under this temporary procedure for Navy, Marine Corps, and Coast Guard volunteers. If the registrant has not been placed in a deferred classification, the local board will prepare and turn over to the registrant certain specified forms, including an Order to Report for Induction, for delivery to the commanding officer of the nearest recruiting station of the service for which he has volunteered.

Volunteers who are inducted will be classified in Class I-C. A volunteer who is found not acceptable by the service for which he has volunteered but whose defects do not manifestly disqualify him for service in the land or naval forces, will be retained in Class I-A, but will not again be forwarded for induction.

(Continued on Page 4)

Puckmen Are Defeated By Indians At Hanover In Season's Last Game

Cap't Kaneb Gets Lone Tally For Beaver Sextet

Playing a cagey game under the direction of Coach George Owen, the Beaver icemen were topped by a strong Dartmouth College quintet to the tune of 5-1, last Tuesday night at Hanover in the last game of their current season. The contest was a decided moral victory for the Tech stickmen in the light of the Big Green's recent victories over "Boston's Best" when the Indians trounced Boston College, 14-2, Harvard 10-8, and Northeastern 9-4.

Throughout the fray the Cardinal and Gray sextet was always in reach of victory but they were unable to turn the trick. The Dartmouth team did not lead by more than two tallies until the final canto when they clinched the contest with a pair of goals. The score by periods was 2-0, 3-1, and 5-1 (final).

In the concluding game of his collegiate career Captain Fred Kaneb led many powerful scoring drives into enemy territory, assisted by the high scoring line of Bettles, Merrow, and White but the boys lacked the punch and shooting eye to cash in. The Dartmouth reminder was also on the alert and saved several potential scores.

Tech's lone score came in the second period when Johnny White assisted by Dick Bettles scored at 16:32. Dick Rondeau dominated the Dartmouth attack, scoring four goals and assisting teammate Harrison on the fifth. Goalie Al Tashjian was the Beaver real star, his expert goal tending saving the team from a much worse defeat. Tashjian who has improved enormously since the outset of the campaign turned back numerous drives by the Indians with sensational saves receiving the applause of the partisan Big Green rooters time after time.

Although the seasoned Dartmouth team kept the Beavers sewed up in their own territory for the larger part of the game, the Tech defense of Fred Kaneb, Charlie Seifert, and Bill Verrochi, who was playing his final game for the team, limited the Indians to their smallest score of the year. Bob Jeremiah, Dartmouth mentor, congratulated the Beavers on their performance and for the first time this season the boys detected a smile on Coach George Owen's face. A summary of the contest follows:

Tech	Dartmouth
Bettles, lw	rw, Harrison
Merrow, lw	rw, Cannon
White, c	c Rondeau
Kaneb, ld	rd, Pulliam
Seifert, rd	ld, Foster
Tashjian, g	g, Barrett

Tech spares: Willard, Noreen, Cook, Gillen, Verrochi, Burdakin. — Dartmouth spares: Hamilton, Briggs, Hughes, Mulhern, Holt, Smart, Thayer, Fessenden, Elston, Pierson.

First Period — Dartmouth, Rondeau (Harrison), 14:49; Dartmouth, Rondeau (unassisted), 15:30; Penalties — Pulliam (tripping); Kaneb (interference); Pulliam (leg check); Willard (tripping).

Second Period — Tech, White (Bettles), 16:32; Dartmouth, Ron-

Hunn And Leonard Named Co-Captains Of Swimming Team

Cavanaugh Elected Prexy Of Swim Club Lamadrid Is Sec'y

Jack Hunn and Jim Leonard were elected co-captains of the varsity swimming team at their banquet last Wednesday night at 6:30 P.M. in Faculty Lounge of Walker Memorial. This election was made necessary at this time by the graduation next week of Henry Tiedemann present captain. The election is not normally held until the annual banquet at the end of the season.

At the banquet the announcement was also made of the election of several new men to the Swim Club. Following the banquet for entire swimming team, a meeting of the Swim Club was held at which the officers for the coming year were elected. Succeeding Walt Boyd, Fred Cavanaugh, manager of the swimming team, was elected president of the club. Following this election, Larry Lamadrid was elected secretary-treasurer.

The banquet was addressed by swimming coach Gordon Smith, and Mr. Ralph T. Joep, of the Advisory Council on Athletics. Mr. Joep expressed the hope that the swimming pool would be open soon again, when the Institute gets fuel to heat it. He also wished the team good luck in their coming meets for the remainder of the season, and congratulated them on their success so far.

Coach Smith told the team that the chances of keeping the schedule full are still good, but may become more difficult as several colleges have already dropped intercollegiate competition in swimming. He also said that at a recent meeting it was decided that the New England Intercollegiate Championships would be held if enough colleges were still maintaining swimming teams.

The season for the swimming

Hockey Banquet To Be At Smith House Jan. 29

According to Fran Carey, manager of the team, the hockey team will hold its annual banquet at the Smith House on Friday, January 29, at 6:15. At that time elections will be held for a new Captain and to choose the player to receive the Varsity Club Award. Coach George Owen, who was at one time a member of the Boston Bruins, plans to have a member of that team there as a guest speaker.

The meeting will be attended by both freshmen and varsity pucksters. Those attending the dinner will have a choice of meals from the menu.

Schedule of Crew Races Announced

Spring Turnout Will Be On February 8

According to Randy Pratt, crew manager the schedule for next year's Beaver crews has been completed. First on the list is the Rowe Cup Regatta, to be held in Cambridge, on the Charles, against Harvard and possibly Boston University, on Saturday, April 24. This is the annual opening spring regatta for Technology crewmen and was won by Harvard last year. Both varsity and freshman races are scheduled to be held in conjunction with this regatta.

The following week, on Saturday, May 1, the Compton Cup Regatta will be held. This is also scheduled to be a home water race for the Beavers. An invitation meet, with Harvard and Princeton the probable competition, this regatta will also consist of both varsity and freshman races.

The final regatta of the spring, according to present plans, which are very tentative, will be on May 15 against Syracuse at Syracuse. A light weight regatta is also planned for this same date. Although details of this regatta are not yet available it appears probable that it will be held here on the Charles.

team is now at a standstill during exams, and while the pool is closed, but three meets are either definite or in the process of negotiation for after vacation. One meet has been cancelled by Wesleyan, as they have abandoned intercollegiate swimming, but a meet for that date is now being arranged with Brown University.

Marksman Lose To New Yorkers

Captain Weisenthal Tops Beaver Scoring

Last Saturday the Beaver marksman journeyed to University Heights, New York to meet the N.Y.U. sharpshooters in a three position match. The final score was 1373-1353 in favor of the New Yorkers. The squad arrived in New York on Friday night and stayed in the Hotel Taft according to Bob Wood, manager of the team. The boys had a lot of fun cleaning out a shooting gallery that night in New York City but were less fortunate the next day. The box score follows:

Tech	New York University
Smock, S.C.—260	Baron, J.—255
Dundon, G.S.—262	Lang, R.—246
Amphor, F.R.—259	Lippman, D.—244
Rosar, M.T.—252	Perlin, J., Manager,—258

Swordsmen Host At Invitational

This Saturday the Tech swordsmen will play host to several New England Colleges in the annual Intercollegiate Invitational tournament. The matches will take place in the handball courts and in Walker Gymnasium and will commence at 10:00 o'clock.

So far this season the fencers have had considerable success and

stand an excellent chance of coping several places in the tourney. Particularly outstanding was the 24-3 triumph over the Boston University Terriers. The D'Artagnan's were held to a tie twice first by Harvard and then by Cornell on their recent road trip. On this trip they also defeated Hamilton College by a score of 17-10. Matches are planned next term with Boston College, Boston University and Dartmouth.

Modern Language Enrollments Drop Twenty Per Cent

Following the general trend in all colleges and universities throughout the country, modern language enrollments at Technology for the fall term have decreased more than twenty per cent over last year's figures. This is a greater drop than in most colleges, the average all over the country being variously estimated at from ten to fifteen per cent. Reports from five hundred and nine colleges and universities indicate that the total modern language enrollment this fall showed a drop of eleven and one-fourth per cent. The annual survey by President Raymond Walters of the New York Times showed enrollment drops in most of the 451 institutions covered, ranging from five to fifty-eight per cent of the full time students.

At the Institute, enrollment in Elementary German dropped from 169 in 1941 to 130 in 1942 and in Intermediate German from 83 to 47, making a total drop from 252 to 177. This amounts to almost 30 per cent. The average drop in German enrollments all over the country was 11.5 per cent.

Individual Language Statistics

Enrollments in Elementary French went from 38 last fall to 25 this fall, and in Intermediate French from 13 to 2, a total drop from 51 to 27, this being almost 50 per cent. French literature dropped from 10 to 4 persons.

Spanish class enrollments have dropped less than any of the others, as seems to be the case all over the country from the surveys. Elementary Spanish enrollments numbered 31 in 1941 and 29 in 1942, and those of Intermediate Spanish went from 12 to 6, making a total drop in Spanish of 8, from 43 to 35, the drop being less than 20 per cent.

In spite of 37 enrollments in a new course in Russian given for the first time this term, total Modern Language enrollments dropped from 356 to 280. This is due partly to a slackening in the language requirements of some courses and partly to a decrease in the number of upperclassmen now in the Institute.

Types Of Victory Books Wanted In Campaign

(Continued from Page 1)

small pocket sized editions of recent popular titles. The drive is aiming to get recent books for the soldiers and is most interested in fiction published since 1930 and others published since 1935.

The Technology Christian Association last night announced that they would aid in the campaign by supplying a depot at which books can be donated. The books can also be left at the Information office, where they have been collected for the past several weeks.

Mr. Jackson of the Information Office says that he hopes donations will be received from some of the fraternity houses which have old text books, or other volumes lying around unused.

Other Business Done By Institute Committee

(Continued from Page 1)

Dormitory Committee. This motion was passed without discussion.

Baton and Radio Societies Motions Tabled

A motion appearing in the agenda regarding changes in the constitution of the Baton Society, was tabled until the next meeting of the Institute Committee, as no member of the Baton Society was present to explain the changes which were requested. Similarly, a motion that changes in the constitution of the Radio Society be made was tabled for the same reason.

George A. Schutte, president of the Class of 1944, and of the Institute Committee, announced his appointment of Robert B. Meny, '44, as chairman of the Senior Ring Committee.

Absentee List

Richard T. Burke, '46, Institute Committee representative of the freshman class, and John R. Taft, '44, Commodore of the Nautical Association, were absent from yesterday's meeting, while Herbert F. Knape, '44, Chairman of the Walker Memorial Committee was late. Lamar Field, '44, General Manager of The Tech; Ward J. Haas, '43, General Manager of the Debating Society; Robert H. Horsburgh, '45, Institute Committee Representative of the Class of 1945, and Ernest T. Schoenwald, '44, Chairman of the Elections Committee, were represented by proxies.

The meeting yesterday was the second of the new Institute Committee headed by George A. Schutte, '44, and is the last one of the term. The next Institute Committee meeting is scheduled to be held at 5:00 P.M. Thursday afternoon, February 18, in Litchfield Lounge.

I.F.C. Discusses Stewards Committee

(Continued from Page 1)

resumption of the Stewards Committee as an agency for buying food for the fraternities in these days of scarcity. He said that it would require a capable man at its head in order to make it work successfully at this time. The feelings of the Conference were, however, that the committee could not be formed at that meeting, but that men from the various houses should look around for a man capable of filling the job of its chairman.

The treasurer's report for the past year showed a \$71.38 deficit in the year's operation. This amount is approximately half the loss which the organization sustained last year. The treasurer also announced that second term dues for all houses are due immediately, and that bills will be sent out as soon as possible.

Houses to Aid Further In War Effort

Chairman Boschen suggested that all houses look around for things which they can do to aid in the war effort, and that they find ways in which various houses can help each other through the I.F.C.

Those houses absent from the meeting were Delta Kappa Epsilon, Delta Psi, Delta Upsilon, Kappa Sigma, Lambda Chi Alpha, Phi Kappa, Phi Kappa Sigma, Phi Sigma Kappa, Sigma Alpha Epsilon, Sigma Alpha Mu, Sigma Chi, and Theta Delta Chi.

The next meeting of the I.F.C. will be held on the third Thursday in February.

McDonough Named Eta Kappa Nu Head

At its last business meeting of the fall term, the Beta Theta chapter of Eta Kappa Nu, honorary electrical engineering society, elected James O. McDonough, '43, president of the society for the coming semester. Assisting him will be John L. Hummer, '43, vice-president; William K. Graw, '44, recording secretary; Henry R. Brown, '43, corresponding secretary; Henry C. Bourne, '44, treasurer; John G. Linville, '43, Bridge correspondent.

For the first time since the organization of the Technology chapter of Eta Kappa Nu, all of its active members are to be in attendance at the Institute this next semester. In previous years this membership was usually divided, a considerable portion of which was out on work terms in connection with the cooperative course, VI-A.

Hockey Box Score

(Continued from Page 3)

deau (Harrison), 17:26. Penalties—Rondeau (pushing), Seifert (hooking).

Third Period—Dartmouth, Rondeau (Harrison), 29; Harrison (Rondeau), 4:21. Penalties—Foster (interference), Fessenden (checking in center zone), Rondeau (charging), Thayer (elbow check), Verrochi (cross check).

Infirmary List

In the Homberg Infirmary last night were:

Albert P. Atkinson, '45
Frederick W. Renssweig, '46
Spiros J. Pantazi, '45
Robert A. McDonald, '46
Robert V. Bartz, '44
Rodney H. Smith, Graduate
Angel M. Gonzales, '43
Richard L. Robinson, '44

Senior Weekend Has Full Program

(Continued from Page 1)

and plans for transportation have been made. Chappie Arnold is to supply the music for the affair.

Scheduled to take place Saturday afternoon is Class Day, the exercises of which are to be held at the site of the original Tech on Boylston Street, where the New England Mutual Life Insurance Building now stands. Following these exercises a Tea Dance is to be held at the same place, the orchestra for which has been kept a secret. Saturday evening will see the Seniors at the Alumni Banquet, to be held at the Statler Hotel.

With Paul V. McNutt, head of the War Manpower Commission, delivering the address for the Baccalaureate Service, Sunday will be taken up with commencement exercises. These are planned to take place in Symphony Hall. Clarence D. Howe, Canadian Minister of Munitions and Supply will deliver the Commencement Address to the departing Class of 1943.

President Compton's reception for the new alumni is slated for Monday afternoon, and the ball will be held that evening.

E.R.C. Plans For 17 Year Old Students

(Continued from Page 1)

listment in the Enlisted Reserve Corps.

The new Army plan for enlistment of men seventeen years of age makes it possible for the men of that age, eligible for enlistment in either branch of the armed services, as the Navy has enlisted men of that age since the beginning of the war.

Induction Plans

(Continued from Page 2)

duction until regular combined calls are levied for all branches of the armed forces. A volunteer who is rejected as manifestly disqualified will be placed in Class 4-F.

Volunteers for induction into the Navy, Marine Corps, or Coast Guard, are required to provide their own transportation to the nearest recruiting station or substation of the service for which they volunteer. Travel required thereafter will be at government expense. Registrants volunteering for induction into the Army ahead of their call by order number will be forwarded to Army induction stations at the earliest opportunity in accordance with existing procedure prescribed by Selective Service regulations.
